Hi Primeaux:

Can you put up the phone number at Shiprock Chapter as the main contact?

For questions about the Gold King Mine waste water spill, call the Incident Command Post at Shiprock Chapter: 505-368-1081.

Thanks.

Eugenia

While the ICP is still set up at Shiprock Chapter, the number to call for information is: 505-368-1081 (according to Perry Begay, Logistics Section at Shiprock Chapter).

The ICP will be moved to Kayenta in following the movement of the plume. I was not provided with a date for the transition.
